BARRISTER is a very high quality, corrected grain rub off from Italy. Rub off leather has been pre-sealed with a special coat to allow professionals to rub this layer off producing the true colour underneath. The more its rubbed, the more the sub surface colour will appear showing a greater contrast.

PLEASE NOTE: This leather has been designed for furniture production of traditional designs such as Chesterfield sofas and other such diamond buttoned furniture. However, it can also be used without rubbing, then over time a natural patina effect will provide this leather with a traditional elegance of its own accord.
